Proprietary Telephones

Quick Reference Guide

Model **KX-T7730**

Important Information

When using the KX-T7730, keep the following conditions in mind.

- If there is any problem, unplug the extension line and connect a known working phone. If the known working phone operates properly, have the defective phone repaired by a specified Panasonic Factory Service Centre. If the known working phone does not operate properly, check the KX series Business Telephone Systems and the internal extension wiring.
- Keep the unit away from heating appliances and electrical noise generating devices such as fluorescent lamps and motors.
- The unit should be kept free of dust, moisture and vibration, and should not be exposed to direct sunlight.
- Do not use benzine, thinner, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.
- Do not disassemble this product. Dangerous electrical shock could result. The unit must only be disassembled and repaired by qualified service technicians.
- Do not use any handset other than a Panasonic handset.
- Never attempt to insert wires, pins, etc, into the vents or other holes of this unit.
- When a failure occurs which exposes any internal parts, disconnect the telephone line cord immediately and return the unit to a service centre.

WARNING:

TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.

THIS HANDSET EARPIECE IS MAGNETISED AND MAY RETAIN SMALL FERROUS OBJECTS.

IMPORTANT NOTICE:

Under power failure conditions, this telephone may not operate. Please ensure that a separate telephone, not dependent on local power, is available for use in emergencies.

- This Class B digital apparatus complies with Canadian ICES-003.

Notes:

- In this manual, the suffix of each model number is omitted.
- For further information, refer to the Business Telephone System Manuals.
- This product is intended to be connected to Panasonic KX series Business Telephone System.

Features List

* Consult your dealer for more details about the feature access numbers.

* Some feature access numbers may be different in each market. Please consult your local dealer for the details.

* For KX-TD500 users, DN buttons cannot be assigned.

Location of Controls

RINGER Volume Selector

* Headset (not included)

-
- 1 **PROGRAM:** Used to enter and exit the programming mode.
- 2 **CONF (Conference):** Used to establish a multiple party conversation.
- 3 **INTERCOM:** Used to make or receive intercom calls.
- 4 **FWD/DND (Call Forwarding/Do Not Disturb):** Used to perform Call Forwarding or Do Not Disturb.
- 5 **FLASH/RECALL:** Used to disconnect the current call and make another call without hanging up.
- 6 **AUTO ANS (Auto Answer) :** Used to receive an incoming call in the hands-free mode.
MUTE : Used to mute the microphone during a conversation.
- 7 **AUTO DIAL/STORE:** Used for speed dialling or storing program changes.
- 8 **TRANSFER:** Used to transfer a call to another party.
- 9 **REDIAL:** Used to redial the last dialled number.
- 10 **HOLD:** Used to place a call on hold.
- 11 **SP-PHONE:** Used for the handsfree operation.
- 12 **NAVIGATOR KEY:** Used to adjust the volume and the display contrast or select desired items for each function.
- 13 **Flexible Outside (CO) Line Button:** Used to make or receive an outside call. Pressing this button seizes an idle outside line automatically. (Button assignment is required.) Also used as the desired function buttons. (Button assignment is required.)
- 14 **PAUSE:** Used to insert a pause during dialling.
- 15 **MESSAGE:** Used to leave a message waiting indication or call back the party who left the message waiting indication.
- 16 **Message/Ringer Lamp:** The Message/Ringer lamp informs you visually that you have a message or a call.
- When you receive a call, the lamp flashes depending on the ringing pattern. When someone has left you a message, the lamp is lit continuously.
 - When the ringing pattern is set to Single (Slow flash), Double (Moderate flash), or Triple (Rapid flash) in your Business Telephone System, the lamp flashes. When the other ringing patterns are set in your PBX, the lamp may not flash. (e.g., S-Double, Call Waiting Tone1).

Initial Settings

◆ **Speaker volume** *

◆ **Handset/Headset volume** *

◆ **Ringer volume**

◆ **Display contrast** *

* The above settings may return to default settings if the telephone line cord is disconnected or the main unit's power is interrupted.

Connection

CAUTION

Ensure the cord is inserted in the groove to prevent damage to the connector.

Wall Mounting

1 Pull down the handset hook until it locks, so the tab holds the handset.

3 Mount the unit on the wall.

2 Remove the attached stand.

To temporarily place the handset down during a conversation, hook it over the top edge of the phone as shown.
